# THE WENATCHEE VALLEY

The Wenatchee Valley enjoys an abundance of recreational opportunities surrounded by the natural beauty of the Cascade Mountains, the Columbia River and more than our fair share of sunshine. The area is thriving, evident by a steady increase in population, and a strong, diverse economy. The area's natural beauty and abundance of recreational opportunities lead the reasons people come to visit and to live here. Residents and visitors alike enjoy the Apple Capital Recreation Loop Trail, a paved 26-mile pedestrian and bicycle path that meanders along the banks of the Columbia River, crossing at two points, connecting the cities of East Wenatchee and Wenatchee. Hikers, mountain bikers, runners, snowmobilers and equestrians enjoy the vast array of trails, which cover more than 2,600 acres. In addition, Mission Ridge Ski Area, 12 miles from downtown Wenatchee, offers a 2,250-foot vertical drop with 2,000 acres of trails, chutes, screamers and bowls, as well as breathtaking views.

With an urban area consisting of 80,000 people, the region offers the perfect balance of larger-city amenities with the relaxed and friendly environment of a smaller town. Powered by clean renewable hydropower, the area enjoys low cost electricity and irrigation that supports the prolific orchards, vineyards and farms.

Along the growing waterfront you will find Pybus Public Market: a community gathering place with a riverfront event facility and the permanent home of the local farmers market. Its amenities include weekly live entertainment and events, an excellent selection of artisan products, gourmet specialty shops, restaurants, local wines, hand-crafted beers, and bike rentals. Next to the waterfront sits historic downtown Wenatchee with its nationally recognized main street, Wenatchee Avenue. Home to numerous small businesses and services, you will find unique shopping stops, accompanied by authentic ethnic dining experiences, spas, an old-fashioned ice cream parlor, running and cycling stores, ski and snowboard shops, all connected back to the waterfront by a pedestrian bridge.

The Wenatchee Valley Mall, in East Wenatchee, gives our area's residents and visitors a more urban retail experience with more than 40 stores, including Sportsman's Warehouse, Olive Garden, Macy's, Ross, Victoria's Secret, Bed Bath & Beyond, and many more. East Wenatchee also has a Costco, while the Valley North Center in Wenatchee offers a central location for large retailers such as Target, JC Penney's, Ulta, Old Navy and more.

The region treasures its performing and visual arts, which add to our rich cultural diversity and history. The Wenatchee Valley Museum and Cultural Center shares our stories with exhibits like the Ice Age Mystery, our Native People of the Columbia Plateau, the Great Northern Railway Connection, a full-scale apple industry exhibit, as well as a Miss Veedol exhibit that showcases the first non-stop Trans-Pacific flight from Misawa, Japan to East Wenatchee in 1931. The combination of rotating exhibits, First Friday Art Walks, and children's maker space activities make the museum fun and informational. The Town Toyota Center, home of Wenatchee Wild Hockey team of the BCHL, hosts world-class entertainment, year-round ice skating and an array of activities ranging from bull riding shows to quilt shows. The Numerica Performing Arts Center is our finest playhouse featuring live performances of Broadway Shows, the Wenatchee Valley Symphony, Stage Kids, and more.

The Valley is a growing hub serving more than 250,000 people around North Central Washington. The Valley's economy remains connected to the Seattle Metro area, which sits a two-and-a-half drive, or a short 20-minute flight, away past the beautiful Cascade Range. Spokane and the Tri-Cities are also a two-and-a-half-hour drive away, putting almost all of Washington State within a morning's trip.

# UNIQUE ASSETS

## Apple Capital Loop Trail

"The Loop" is Wenatchee's most accessible recreational trail. Along the western bank of Wenatchee's riverfront, the paved trail follows a series of manicured riverside parks along the Columbia River. Next, the trail crosses the Odabashian Bridge (Highway 97) on the north side of town. Then it follows the waterfront of East Wenatchee, left unaltered as an arid desert landscape, before recrossing the Columbia on the Pedestrian Bridge (the first bridge spanning the Columbia, built back in 1908) and returning to the starting point. A few paved extensions on the east side of the pedestrian bridge allow for an additional 2.2 miles, following the Columbia River to Kirby Billingsly Hydro Park. Another paved spur leads from the east side of the Loop Trail at the Odabashian Bridge for 5.5 miles through orchards along the Columbia to Lincoln Rock State Park and back.

This is a popular trail for strollers, walkers, and runners of all stripes—serious fitness fanatics, parents, children, families, senior citizens, bicyclists, joggers, in-line skaters, dog walkers and more.

[ChelanPUD.org](http://ChelanPUD.org)

## Miss Veedol

Miss Veedol was the first airplane to fly nonstop across the Pacific Ocean. On October 5, 1931, Clyde Pangborn and copilot Hugh Herndon crash-landed the plane in the hills in East Wenatchee, completing the historic flight. The 41-hour flight from Sabishiro Beach, Misawa, Japan won them the 1931 Harmon Trophy, symbolizing the greatest achievement in flight for that year.

A local group founded the Spirit of Wenatchee, a non-profit organization of EAA Chapter 424 pilots. They have built an accurate replica of Miss Veedol. A permanent exhibit resides at the Wenatchee Valley Museum and Cultural Center, and tours of Miss Veedol are available through the museum as well.

## Ohme Gardens

Nearly a mile of natural stone pathways traverses the hillside gardens, ushering you past breathtaking panoramic views, towering cedars and firs, lush foliage, mesmerizing waterfalls and tranquil pools. For more than 90 years its vegetation changes as spring welcomes summer and summer embraces autumn. Purchase plants for your own garden or as a gift. This is a popular and picturesque choice for an outdoor wedding, summer concerts, art classes or yoga in the garden.

[OhmeGardens.com](http://OhmeGardens.com)

## Cascade Loop Scenic Highway

Called "One of America's grandest, most spectacular drives," by National Geographic Traveler, this 400-mile self-guided driving tour leads you through the heart of Washington—from the waters of Puget Sound, across the Cascade Mountains, and into the high desert climate of the Columbia River Valley. [CascadeLoop.com](http://CascadeLoop.com)

## Rocky Reach Discovery Center

We invite you to buckle your seatbelt as we reopen in 2021 and emerge reimaged that will allow this community treasure to provide lasting value into the next 50 years.

[ChelanPUD.org](http://ChelanPUD.org)

## Ice Age Flood Trail

A vast, barren landscape carved thousands of years ago by gigantic floods, the Ice Age Flood Trail is a perplexing scientific puzzle still being solved. Long ago thundering torrents of water, ice, rocks and soil roared across the Northwest, carving new canyons, creating monstrous waterfalls, and instantly transforming the face of the land. The Wenatchee Valley Museum & Cultural Center seeks to inspire dynamic connections to the unique heritage and history of North Central Washington. Creative programs, exhibits and publications reveal the stories of the people who have built our community. Take a step back in time at the museum. Learn about the earth-shattering power of the Great Missoula Flood, and how cataclysmic forces carved and shaped our region. Expand your mind, explore your imagination and get in touch with the roots of our region at the museum!

### Mariachi Huenachi

Mariachi Huenachi is the advanced mariachi class at Wenatchee High School, part of the Golden Apple award-winning Wenatchee School District's Mariachi Music Program that has made national headlines, being featured on FOX, ABC Networks, and on the CBS Evening News. It is no wonder Mariachi Huenachi has earned a reputation as the best high school mariachi program in the State of Washington. The group performs annually at dozens of festivals, government, and community events in and out of Washington State. Past performances include Seahawks, Mariners, Chivas de Guadalajara games, Washington State University, University of Idaho, Folklife Festival, EMP, Latino Legislature Day, and important bill signings at the State Capitol.

Bringing to life Mariachi music, one of the great folk traditions of Mexico, Wenatchee High School's award winning mariachi program is made up of more than 300 students (ages 9-18) participating in music and dance groups that include Mariachi Huenachi, Mariachi Azteca, Mariachi Azul and Folklorico Corazon de Mexico. This is all possible as a result of the tireless efforts of Director Eduardo Cortes and Ramon Rivera that came before him. # TECHNOLOGY

Wenatchee is the urban center in a region that has traditionally been dependent on agriculture as a mainstay of the economy. While agriculture does maintain a major share of the economic activity in the region, during the last decade great strides have been made to diversify the economy. The area's largest employers reflect the region's agricultural heritage, as well as other strengths, including hydroelectric power, health care, technology, education, and tourism.

The valley now boasts multi-million-dollar datacenters for Verizon, Microsoft and the Sabey Corporation, as well as numerous high-technology businesses and entrepreneurs that are flourishing, thanks to the Chelan PUD's commitment to a fiber backbone for the region that boasts connectivity equal to the I-5 corridor.

## Chelan County PUD

Chelan County Public Utility District (PUD) was formed in 1936 by local voters who wanted affordable power for all county residents. The first electricity was delivered 11 years later, to a small group of customers near Lake Chelan. Today, it operates three hydro projects that deliver clean, renewable, low-cost energy to residents and to other utilities that serve millions of residents of the Pacific Northwest.

Chelan County PUD has built a fiber-optic network to most of Chelan County, where many residents have access to the fastest connection anywhere in the world, including high-speed internet (up to 1 Gbps / 1,000 Mbps), telephone and HDTV television.

[ChelanPUD.org](http://ChelanPUD.org)

## Douglas County PUD

The Douglas County Community Network (DCCN) is an ultra-high-speed broadband network originally designed for Douglas County PUD's electric system. The network includes hundreds of miles of fiber-optic cables lit by cutting-edge Ethernet network equipment. This network enables Douglas PUD to safely and effectively monitor and control its electric system. As an added benefit to the customer owners of Douglas PUD, the DCCN makes available high speed broadband services such as internet access, Internet Protocol TV (IPTV), and Voice over IP (VoIP) to residents, businesses, and government agencies throughout Douglas County. Ethernet offers bandwidth of up to 1,000 Mbps, which makes downloading content from the internet very fast for DCCN end users.

The network also interconnects with many regional network providers, as well as adjacent PUD networks, connecting Douglas County to the world.

In areas where wired connections aren't feasible, such as much of the Waterville Plateau, the DCCN offers wireless broadband. While wireless broadband currently offers less bandwidth than hardwired connections, it is far better than satellite or dial up connections that would otherwise be the only available options. # HOUSING

The Wenatchee Valley is a desirable place to live. Combined with a healthy economy, current and new residents to this area sometimes struggle to find housing. Several organizations and publications rate the Valley as one of the top places to live and retire.

To address this issue, a Housing Solutions Group has been formed as part of Our Valley Our Future community visioning process to conduct research and develop a series of recommendations to policy makers. This effort explored construction cost disparities and existing and future inventory needs. They have recently completed and published their findings.

# SENIOR LIVING

Beginning in 2017 the Wenatchee area has been continually recognized by Forbes as one of the top 25 Best Places to Retire. We think the reason might be that in the Wenatchee Valley, seniors simply enjoy their retirement years in beautiful surroundings with plenty of activities and recreational opportunities.

As a growing segment of our population, their demands for space and services for seniors including independent living, independent living communities, and assisted living facilities have increased. Construction of new facilities has increased to meet the demand in the past several years, and the options are plentiful. Several organizations in the Wenatchee Valley are committed to enhancing the quality of life for area seniors.

## **Aging and Adult Care of Central Washington**
